

Karen Stanecki
UNAIDS Senior Adviser on Epidemiology

Karen Stanecki is part of UNAIDS' expert team on epidemiology. She is responsible for making assessments of AIDS-related morbidity and mortality. Ms Stanecki participates in the development of temporal trend data on HIV prevalence by country, region and globally, including historic perspectives, and assists in improving estimates of prevalence, incidence and mortality for orphans, young people and women. In addition, she is currently Chair of the UNAIDS/WHO Working Group on Global HIV/AIDS and STI Surveillance and Chair of the Monitoring the AIDS Pandemic (MAP) Network. She received a Master's of Public Health in Biostatistics and a Bachelor's of Science in Mathematics from the University of Michigan.
